Jefferson City, MO 65102

Plan to attend MSOA's 41st Annual Meeting

May 21-22, 2010 • Kansas City, Missouri

Doug Kiburz, M.D.
MSOA President

You are cordially invited to join your colleagues and the Board of Directors of the Missouri State Orthopaedic Association for our 41st Annual Meeting.

As orthopaedic surgeons, we are leaders of our team. One of our responsibilities is the ongoing education and integration of all components of the orthopedic team. That's why as MSOA President, I cordially invite Orthopaedic physicians along with Orthopaedic Physician Assistants and Nurse Specialists to attend the Annual Meeting's scientific program. Energize your team members with this convenient educational experience and show them how valuable they are to the success of your program.

This year's annual meeting includes a diverse group of presenters and topics, including physicians from private practice, hospitals, and universities. Hear the latest information available from physicians at the University of Kansas, University of Missouri-Kansas City, Truman Medical Center, Children's Mercy Hospital and Clinics, as well as orthopaedic leaders in private practice.

There is truly something for everyone at this year's MSOA Annual Meeting:

- **Keynote Speaker:** I am pleased to welcome Marshall K. Steele, M.D. as the Presidential Guest Speaker during MSOA's annual luncheon. Marshall K. Steele, MD, President is a Board Certified Orthopedic surgeon, founder and CEO of Marshall | Steele.
- **Scientific Presentations:** Hear firsthand from a premier slate of experts involving reverse shoulder arthroplasty, hip resurfacing, gunshot wounds and open fractures. Discuss innovative care with leaders in their field involving current treatment options for articular cartilage injuries, hip and knee arthroplasty sepsis, and elbow fracture-dislocations. Learn how you can diagnose and manage pediatric back pain.
- **Legislative Reception:** On Friday night, join the MSOA Board of Directors at a private legislative reception honoring key members of the Missouri General Assembly supportive of MSOA's legislative agenda.
- **Exhibit Hall:** Visit with industry leaders and suppliers on the newest technology available to Orthopaedic physicians.

We look forward to seeing you in Kansas City on May 21-22, 2010.

Doug Kiburz, M.D.
MSOA President

KEYNOTE SPEAKER

Marshall K. Steele, M.D.

Dr. Marshall K. Steele started his practice in 1977 as a solo practitioner and grew it to 16 sub-specialized orthopedic surgeons. Between 1996 and 2005, he not only practiced medicine but also served as the Medical Director of Surgical Business Development at Anne Arundel Medical Center in Annapolis, Maryland. He was instrumental in helping develop many very successful specialty surgical programs including joint replacement, spine, sports medicine, vascular, wound care, breast and surgical hospitalist.

Dr. Steele has authored 2 books "Sideline Help" (sports medicine) and "Orthopedics and Spine: Strategies for Superior Service Line Performance". Recent articles and presentations include "Thoughts on Lighting up the Dark Side" (AAOS Now) and "The Case for Excellence" (Clinical Orthopedic Research Society). He has consulted with hospital systems and surgeons throughout the world. In 2006, Dr. Steele retired from surgery to create Marshall | Steele. His vision for transforming healthcare is to implement focused patient designed service lines that can be effectively managed to create more value.

Marshall K. Steele, M.D. will present "Don't Wait and Don't Paint the Shack"—a presentation about how orthopaedic practices will be affected by upcoming changes. Physicians, members of the orthopaedic surgical team, and exhibitors are invited to learn about the core elements of excellence, how to collect outcomes with ease, and how to change our thinking and culture. In addition, Dr. Steele will discuss the patient centric care model and how to create an "orthopedic destination center" in your practice and your hospital.

MISSOURI STATE ORTHOPAEDIC ASSOCIATION 2010 ANNUAL MEETING PROGRAM

May 21-22, 2010

Dr. Akin Cil, Program Chair

Friday, May 21, 2010

7:00 p.m. 7th Annual MSOA Legislative Reception
Join the MSOA Board of Directors at the Hotel Intercontinental on the Plaza for a private reception honoring key members of the Missouri General Assembly.

Saturday, May 22, 2010

8:00 a.m. Welcome/ Housekeeping

8:15 a.m. MSOA Business Meeting & BOC Councilors Report
Goal: to understand priorities and objectives of the AAOS board of councilors.

8:30 a.m. Reverse Shoulder Arthroplasty: Indications & Considerations
— C. Craig Satterlee, M.D.; Drisko, Fee & Parkins, P.C.

Learning Objectives:

1. Understand the indications and limitations for reverse shoulder arthroplasty.
2. Appreciate the basic biomechanical differences between reverse and anatomic shoulder replacements.
3. Comprehend the basic surgical technique principles and rationale.
4. Recognize the short and longer term complications.

9:05 a.m. Articular Cartilage Injuries Current Treatment Options
— Jon E. Browne, M.D.; Orthopaedic & Sports Medicine Clinic of Kansas City

Learning Objectives:

1. Understand options for non-operative vs. operative treatment.
2. Assimilate a stepwise approach in determining best choice.
3. Acquire understanding of current research investigational treatment programs.

9:40 a.m. Compression Neuropathies of the Upper Extremities
— Brian J. Divelbiss, M.D.; Dickson-Diveley Orthopaedic Clinic

Learning Objectives:

1. Review the evaluation and diagnosis of patients with upper extremity nerve compression syndromes.
2. Review the surgical alternatives for patients with upper extremity nerve compression syndromes.
3. Review the postoperative management for patients with upper extremity nerve compression syndromes.
4. Discuss the evaluation and management of failed surgical treatment for upper extremity nerve compression syndromes.

10:15 a.m. Break

10:35 a.m. Treatment of Hip and Knee Arthroplasty Sepsis
— Kelly J. Hendricks, M.D.; University of Kansas Department of Orthopaedic Surgery

Learning Objectives:

1. Understand signs and symptoms of arthroplasty infection.
2. Develop deeper understanding of treatment options for arthroplasty infection.
3. Provide the background for providing appropriate patient expectations of arthroplasty infection outcomes.

11:10 a.m. Gunshot Wounds & Open Fractures: General Approach
— Joshua J. Niemann, M.D.; Dickson-Diveley Orthopaedic Clinic

Learning Objectives:

1. Understanding the classification of open fractures.
2. Review the different approaches for management.
3. Learn current recommendations for antibiotic prophylaxis.

12:00 p.m. Luncheon with Presidential Lecture: “Don’t Wait and Don’t Paint the Shack”
— Marshall Steele, M.D.; Board Certified Orthopedic Surgeon
Founder & CEO of Marshall | Steele

Learning Objectives:

1. How your practice will be affected by upcoming changes?
2. The patient centric care model—why it’s important to you?
3. The core elements of excellence—what are they?
4. How you can collect outcomes with ease.
5. Why our thinking and our culture must change.
6. How to create an “orthopedic destination center” in your practice and your hospital.

1:00 p.m. Pediatric Back Pain
— John T. Anderson, M.D.; Children’s Mercy Hospital, Kansas City

Learning Objectives:

1. Understanding the different causes of back pain in children.
2. Review the conservative and surgical management of different causes of back pain.
3. Understanding the circumstances of when to refer to a pediatric back surgeon.

1:35 p.m. Elbow Fracture-Dislocations
— Akin Cil, M.D.; Truman Medical Center, Kansas City

Learning Objectives

1. Understanding the mechanism of dislocations and types.
2. Understanding when to do arthroplasty and when to do fixation.
3. Understanding the post-operative rehabilitation for elbow trauma.

2:10 p.m. Joint Preservation Surgery, Hip Arthroscopy and Hip Resurfacing Updates for the Adolescent and Young Adult Hip Patient
— Ryan Nunley, M.D.; Washington University, St. Louis

Learning Objectives:

1. Accurately diagnose and treat young, active adults with pre-arthritis and degenerative hip pain.
2. Improve your understanding of the causes of labral tears and femoral-acetabular impingement (FAI).
3. Discuss the new and rapidly evolving treatments in joint preserving surgery and hip arthroplasty options.
4. Understand options for hip preservation surgery, arthroscopy and hip resurfacing for young adults.

2:45 p.m. Closing Remarks, Completion of Evaluation Forms, Questions and Comments

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the American Academy of Orthopaedic Surgeons and the Missouri State Orthopaedic Association.

The American Academy of Orthopaedic Surgeons is accredited by the ACCME to sponsor continuing medical education for physicians.

The American Academy of Orthopaedic Surgeons designates this educational activity for a maximum of 6.25 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
